## PERRYSBURG MEN VISIT FORD FACTORY.

On last Thursday Wm. Schlect, Ford dealer, and 17 prospective Ford buyers of Perrysburg and vicinity, visited the big auto plant at Detroit.

After arriving at the factory at noon and eating lunch in the factory's dining room they were taken through the plant by guides and shown the interesting way in which autos are made.

The party expressed their pleasure in witnessing the assembling and turning out of two cars a minute as timed by them, as they were completed and run out under their own power—one every thirty seconds—which is a sight hard to realize unless seen. All report a good time and are wondering how one little car could have such a mammoth corporation back of it.
